SUMMARY

Full Stack Developer specializing in the MERN stack, experienced in building scalable web architectures, secure REST APIs, and robust authentication systems. Adept at translating business logic into clean, maintainable code across full-stack applications with advanced authentication and state management workflows.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C++, SQL, C

Frameworks and Libraries: React, Node.js, Express.js, MongoDB, Redux, Tailwind CSS

Tools & DevOps: Git, GitHub, VS Code, Postman, Docker

PROJECTS

Constant | Scaled 3D assets marketplace In Progress

- Developing Constant, handling **.glb**, **.gltf**, **.obj**, **.fbx** assets files with **OAuth authentication**, creator profiles, asset uploads, downloads, comments, and upvotes.
- Building secure and scalable asset storage using **Amazon S3** presigned URLs, with **Redis** caching for improved API performance.
- Implementing **BullMQ** and **Redis** for asynchronous background jobs, improving the reliability and scalability of resource-intensive operations.

SprintLab | Realtime collaborative team platform Live | [GitHub](#)

- Developing a **Multi-tenant B2B SaaS** project management platform for scalable workspace management, team collaboration using **Web sockets**, and dynamic team members invitations.
- Implemented **Role-Based Access Control (RBAC)** with project, task, and activity tracking systems, plus a **Tiptap-based** rich text notes editor and Gantt-style timeline view.
- Engineered a secure **JWT authentication** architecture using access and refresh tokens, with a kanban board built on **@dnd-kit drag-and-drop**.

Veda AI | Agentic AI Healthcare Platform Live | [GitHub](#)

- Built an Agentic AI healthcare platform enabling intelligent real-time interactions between patients and healthcare professionals.
- Developed the complete application on the MERN stack with secure token-based authentication.
- Integrated **AI-driven conversational workflows** delivering context-aware, personalized, and stateful responses for extensible agentic workflows.

EDUCATION

Master of Computer Applications (MCA) 2025 - 2027

Trident Academy of Creative Technology, Bhubaneswar
